- **The definitive book on contemporary sculpture and installation art from around the world**
- **Features the work of 120 international artists, such as Ai Weiwei, Rebecca Warren, Mike Nelson, Rachael Harrison and Ernesto Neto, who have been nominated by an international roster of influential critics and curators**
- **Displays the incredible breadth of techniques and materials used by artists today from large-scale sculptures of glass and cement to delicate paper installations**
- **Texts by significant critics, curators, art historians and creative writers represent a wide variety of perspectives**
- **Both a reference book for the art world and an accessible introduction for newcomers to the scene**

Anne Ellegood is a Curator at the Hirschhorn Museum and Sculpture Garden, Washington, DC.
