- The only monograph on the groundbreaking American minimalist sculptor Carl Andre (b.1935)
- Unique access to Andre's studio and personal archives has unveiled the mysterious figure of the artist, exploring the roots of his works and explaining how they manifest his philosophies
- Insightful exploration of Andre's poetry presents its previously neglected importance in all of his work
- Includes never before published sketches and writings, and many contemporary installation photographs from throughout Andre's career, as well as works in private collections and those in major international museums

Alistair Rider is a Lecturer in Art History at the University of St Andrews, Scotland. Among other publications he co-edited the anthology of art criticism *About Carl Andre: Critical Writings since 1965* (2006).
